Easy Come, Easy Go.

Sit back, breathe in, breeze away. The Interceptor exudes a versatile, laid-back attitude with its upright riding position. And its suspension is developed for precise, immediate handling while staying agile and light. Fun, under your control.

Hello yesterday

Powered by the air-oil cooled parallel 650 Twin, the Interceptor is a trove of 60s design staples with its 7" headlight, twin clock front and

quilted twin seat. The narrow teardrop tank is slapped with a classic badge and topped with a Monza-style fuel cap. A dual cradle frame with a rear loop makes up the core, by way of a nod to the original Interceptor

The Twin is in

The 650 Twin is the rebirth of Royal Enfields legendary parallel twin cylinder engine. And its driving two Royal Enfield classic motorcycles the Interceptor and the Continental GT. While classically styled and visually beautiful, the new engine is Royal Enfields most forward-looking yet, with a cleaner, elegant look, fewer components, less weight and easier maintenance.
