Engine Size	889cc
Mileage	530km
Transmission	n/a

The 2023 MT-09 is an even higher specification motorcycle that is lighter, more powerful and more advanced in every area. Equipped with class-leading electronic control technology and top level equipment the all-new MT-09 offers the ultimate package.

889cc CP3 engine: More capacity, power, torque, feedback, control and fun. A key factor in the runaway success of the MT-09 is the exciting performance of its CP3 threecylinder crossplane technology engine. After eight years of providing the most exciting and rewarding riding experience, the time has come for a new design that

delivers higher levels of power and torque at all engine speeds.

To achieve a more torquey and agile feel the EU5-compliant engine has been completely redesigned and reduced in weight.

Virtually every major component is new, including pistons, connecting rods, camshafts and crankcases, and despite its larger capacity and higher power output.

Yamaha NZ Fleet Vehicle.

📍 79 Crawford St, CBD, Dunedin 9016
